#### Woodstock Chimes Aloha Chime

\$30  
[chimes.com](http://chimes.com)

Percussionist Garry Kvistad, 56, built his first wind chime by stringing together aluminum tubes from a lawn chair. After tuning the chime by ear to an ancient Greek scale, Kvistad founded Woodstock Chimes with his wife, Diane. Their company became one of the first to tune chimes to specific songs. The Aloha Chime is keyed to "Amazing Grace."
