**Woodstock Chimes® Introduces New Fountains to Its
Environments Collection**

Offering tranquility to the home in trend-forward designs

(Shokan, N.Y.) -- Woodstock Chimes, a leading manufacturer of precision-tuned windchimes, helps bring serenity to any environment with its latest fountain additions to the company's ever-expanding **Environments Collection**: *Woodstock Moon Fountain* and *Ying Yang Fountain™*. Each fountain offers tasteful design in a striking granite finish with gentle sounds of cascading water to create relaxing and soothing environments.

"Our evolving fountain series creates a whole new dimension of design and development for our company," says Woodstock CEO Garry Kvistad. "We are excited to offer our customers new distinctive designs that help relax and rejuvenate one's mind, body and soul with the delicate sounds of flowing water."

The exquisite design of the *Woodstock Moon Fountain™* features a LED light that displays across an acrylic disk and, when placed against a wall, causes a reflection to illuminate the surface behind it. The attractive, granite-finished fountain uses a LED light that never needs replacing, offering minimal maintenance while adding maximum tranquility and style to any indoor or outdoor setting. The *Ying Yang Fountain™* is the basis of the classical Chinese science and philosophy that yin and yang represent two opposing and complementary aspects of life. Flowing water hugs the granite-finish, yin yang symbol as it streams down this beautiful tabletop fountain. The granite-finish on this eastern influence fountain not only looks beautiful, but does not have the weight of a solid piece of granite, making it suitable for either the home or office.
