The Woodstock Music Collection®, by the makers of Woodstock Chimes, introduces a new *Woodstock Conga Drum™* to its award-winning line up of children's instruments. The collection makes playing music accessible to kids of all ages and features a wonderful assortment of nearly 100 different musical instruments from around the world.

Originating from Africa, the conga drum became popular in the 1950s, when Latin Music swept the nation. Today, conga drums are common in many genres of popular music. "Woodstock's instruments are always designed with small hands in mind," says Woodstock CEO Garry Kvistad. "Our Woodstock Conga Drum also has a serious sound that will appeal to adults as well. Plus, it's made using all of the correct hardware of a larger, professional drum."

The durable, mylar drumhead is kid-friendly, and was originally developed to take the hard beats of rock-and-roll. The *Woodstock Conga Drum™* is constructed of hardwood, features chrome-plated steel hardware and comes with its own drum key.
