Summer Introductions from Woodstock Chimes Showcase New Dimension of Visual, Musical Trends in Windchimes

Woodstock Chimes, a worldwide leader in the manufacture of precision-tuned wind chimes and premium musical gifts, introduces a stunning lineup of new products for the summer. "Our company is well-known in the industry for creating products that sound beautiful," says Woodstock Chimes CEO, Garry Kvistad. "This year, we wanted to bring a new dimension of unique design and visual beauty to our windchimes, as well. These introductions offer the best of both worlds -- unmatched musical tuning and trend-setting design."

Additions to Existing Collections

One of Kvistad's favorite introductions is the *Victorian Garden Gong*, an addition to the **Woodstock Gong Collection**. "It's amazing how popular gongs have become," he says. "We were the first company to bring this ancient instrument to the market for home and garden by making them user friendly and fashion-forward, but couldn't have anticipated how trendy gongs would be today." The *Victorian Garden Gong* is made of cast iron, powdered-coated with antique copper and stands 27.5-inches high, 17.25-inches wide and 9.5-inches deep. It also features a 10-inch bronze gong and retails for \$150.

Woodstock Chimes also adds another new gong for 2007 with the addition of the *Dharma Gong*, a 6-inch bronze gong, hung from washed black pine wood. It hangs 19.5-inches long and 7.5-inches wide and retails for \$45. The *Dharma Bell Tree* is also new, featuring six copper-plated steel bells and stone clappers, also hung from washed black pine wood. The bells are 30-inches long, 7-inches wide and retail for \$35.

Continuing with the popularity of Woodstock Chimes' unique **Bells Collection**, the company introduces the *Woodstock Sun Bells*, with six brass-plated steel bells, brass anodized aluminum

arches and a whimsical sun ornament, all in a brilliant gold color. The bells retail for \$35 and measure 13 inches by 10 inches.

The *Woodstock Lapis Spiral* joins the ***Precious Stone Collection***, made with stones historically believed to have magic powers. Lapis -- the stone of truth and openness -- spirals around the 16 aluminum rods, strung from blue and gold-finished cherry wood on this breathtaking windchime. The *Woodstock Lapis Spiral* retails for \$30 and measures 26 inches long.

Finally, the *Encore Snowflake Spinner* adds a seasonal touch to the ***Woodstock Evolutions Collection***. The 3D, silver snowflake remains still in the wind as the blue aluminum rings revolve around it. The 10-inch spinner retails for \$20.

New Collections

Woodstock Chimes unveils three innovative new collections for summer 2007. The company introduces two debut chimes in the ***Woodstock Music Box Chimes Collection: Bamboo*** and ***Dragonfly***. Inside the box, music box rods tuned to ancient Asian scales are fixed to the base. As the windcatcher blows in the wind, it causes the clapper to strike the music box "comb" inside which creates its music-box quality sound. "This concept of a music box chime was one we have been working on for a while at Woodstock Chimes," says Kvistad. "I'm very excited to be introducing it this summer because there is no other product like it on the market." Both ***Music Box Chimes*** are 21-inches long and retail for \$40.

The company also debuts its unique ***Aromatherapy Bell***, which pleases not just two senses, but three! Its creative visual design features a brass metal bell hung from ash wood. Dripping essential oil on a ceramic diffuser, which sits opposite the bell, causes scents to permeate the air. The ***Aromatherapy Bell*** retails for \$25 and measures 17.5 inches by 12 inches.

The new ***Woodstock Plant Chimes*** add the perfect touch to any indoor plant or outdoor garden. Woodstock Chimes introduces three to this new collection: ***Gecko***, ***Kokopelli*** and ***Sun***. Each features a whimsical ornament with three aluminum rods hung from a 19-inch stake. The ***Woodstock Plant Chimes*** each retail for \$12.

Encore Collection Subset

Woodstock Chimes also introduces a subset of three new chimes to its *Encore Collection*. All the windchimes in the *Encore Collection* are tuned to an ancient pentatonic scale, creating sound synergies that make them ideal for hanging in groups. The *Chimes of Mars*, *Chimes of Pluto* and *Chimes of Earth* each feature Verdigris powder-coated aluminum tubes strung from natural finish ash wood. The *Chimes of Mars* is 17-inches long and retails for \$15. The *Chimes of Pluto* is 27-inches long and retails for \$30. The *Chime of Earth* is 37-inches long and retails for \$50.
