## Woodstock Chimes<sup>®</sup> Introduces New Products for Summer 2008

Woodstock Chimes, a worldwide leader in the manufacture of precision-tuned windchimes and premium musical gifts, introduces a stunning lineup of new products for summer 2008. The introductions include additions to several of Woodstock Chimes' most popular product series -- the *Woodstock Environments*<sup>™</sup>, *Gongs*, *Precious Stones* and *Artist's Garden series*. The company also unveils its new *Woodstock Habitats*<sup>™</sup> and the newest instruments in the *Woodstock Music Collection*<sup>®</sup>.

"Designing brilliant sounding and eye-catching products is the dedicated mission of Woodstock Chimes," says CEO, Garry Kvistad. "We continuously strive for perfection and customer satisfaction with all our products. I believe these latest products are certainly ones that fit that mold. "

Woodstock Chimes is recognized for elevating the windchime into an item with musical relevance, using a technique that precisely tunes the company's windchimes to musical scales. The aluminum tubes on all Woodstock Chimes are precision-tuned using the ancient system of "just intonation," resulting in pure harmony between musical notes. Since each Woodstock Chime tube is tuned individually, tube lengths of identical notes may vary slightly, but the pitch is always perfect making the chimes a heavenly addition to any atmosphere.

### Additions to Existing Series

One of the latest additions to *Woodstock Gongs*<sup>™</sup> is the *Woodstock Healing Gong*<sup>™</sup>. "The ever-growing popularity of the home and garden gongs continues to fuel our pursuit of new fashion-forward designs," says Kvistad. The *Healing Gong* is handcrafted using traditional methods, bringing the ancient wonders of the Far East home. The *Healing Gong's* elegant look is pronounced by its bold cherry and black finish ash wood. This hanging wind gong is 30-inches long and 15-inches wide with a 10-inch bronze gong. It retails for \$80.

Woodstock Chimes also adds a new freestanding gong to its collection for 2008, the *Torii Garden Gong*<sup>™</sup>. This beautiful 20-inch bronze gong features walnut finish ash wood and black powder-coated aluminum spacers and steel frame. It stands an impressive 43-inches high, measures 37-inches wide and retails for \$550.

Adding a charitable dimension to the *Precious Stones Series* is the *Chimes of Hope*<sup>™</sup>. Three silver tubes, accompanied by genuine stones and a pink powder-coated steel “ribbon,” hang delicately from black finish wood. The chime measures 30-inches long and retails for \$30. A portion of the proceeds from this chime will be donated to organizations committed to the fight against Breast Cancer.

Another new item in the *Precious Stones Series* is the *Chimes of Santa Fe*<sup>™</sup>. This idyllic chime incorporates amber-colored stones, four bronze tubes, walnut finish wood and copper to evoke the colors and flavor of this wonderful locale. This chime hangs 26-inches long and retails for \$60.00.

The *Artist’s Garden Series* welcomes the patriotic sounds of the *America the Beautiful Chime*<sup>™</sup>. Featuring the favorite classic “America, the Beautiful”, this new chime captures the grandeur of the American landscape and spirit of its people. Its satin silver anodized aluminum tubes are accented with blue wash finished wood and measures 24-inches in length. *America the Beautiful Chime*<sup>™</sup> retails for \$50.
