Just in time for the 2008 Toy Fair, Woodstock Chimes has added new products to the Woodstock Music Collection, a unique assortment of instruments from around the world that can be played and enjoyed without extensive training or practice. The new *Woodstock Conga Drum*, *Woodstock Band* and *Jingle Fish* all feature the simple and sturdy instrument designs that the company's retailers have come to appreciate for more than 20 years. In fact, *TDmonthly Magazine* recently surveyed a number of independent toy retailers, who revealed that that "old fashioned" and "plain" musical instruments sell far better than electronic instruments with flashy bells and whistles.

The new *Woodstock Band* certainly has that old-fashioned appeal that toy shoppers are seeking. Complete with triangle, tambourine, jingle bells and castanets, the set contains everything needed for a youngster to start his very own band. And while the *Woodstock Conga Drum* features a sleek contemporary look, its simple and sturdy design can withstand even the toughest beats. Similar to last year's introduction of a natural-colored drum, this year's *Woodstock Conga Drum* is available in an eye-catching shade of orange. Lastly, Woodstock introduces a new take on an old favorite with its *Jingle Fish*. A perfect gift item for Christian retailers, the fish-shaped tambourine has the same great sound as other Woodstock tambourines, but its unique shape makes it even more fun to play!
