**WOODSTOCK PERCUSSION EXPANDS ENCORE COLLECTION WITH NEW BELL AND CHIME ADDITIONS DURING SUMMER 2005 MARKETS**

**SHOKAN, NY** (May 4, 2005) – Woodstock Percussion, Inc., worldwide leader in the manufacture of precision-tuned wind chimes and premium musical gifts, will introduce new chime and bell additions to its collection of high-quality, value-priced musical giftware during the 2005 summer gift shows in Atlanta, Dallas, New York and other key markets. Offering hand-tuned harmony at affordable prices, the introductions highlight the newly-expanded color offerings to Woodstock's line of Fiesta Bells™, as well as Chimes of Pluto™ and Chimes of Saturn™.

Marketed as part of Woodstock's popular Encore® Collection, which targets the more price-conscious consumer, items in this collection are available in a variety of sizes and complementary colors, offering a full range of musical giftware in many price points. The Encore Collection chimes are meticulously tuned to an ancient pentatonic scale, and work harmoniously with all other Woodstock chimes, allowing consumers to turn their home, deck or garden into a unique palette of sight and sound.

**NEW ENCORE COLLECTION DESIGN HIGHLIGHTS**

Highlighting Woodstock's summer introductions are the Fiesta Bells™ available in sangria and spruce. Pictured on the enclosed CD, **Fiesta Bells™-Sangria (CD ID: FBSA)** are designed to have the best sound possible for their size. The 24" Fiesta Bells™-Sangria wind chime is a simple, yet elegant design that pairs four brass bells with sangria ash wood accents. Suggested retail price \$19.99.

Named for the brightly-ringed sixth planet from the sun, **Chimes of Saturn™-Silver (pictured on the enclosed CD – ID: DCS47)** is designed and handcrafted for superior musical performance. The 47" chime features four ½" aluminum tubes finished in a silver anodized coating and bubinga wood accents. The Chimes of Saturn are tuned to the hourly melody of the Big Ben Clock Tower in London with long tubes cut to imitate the sounds of distant church bells. Suggested retail price \$24.99. Also available in black.

The 27" **Chimes of Pluto™-Black (pictured on the enclosed CD – ID: DCK27)** combines six 7/8" aluminum tubes finished in a black powder coating with bubinga-finished wood accents. Suggested retail price \$24.99. Also available in bronze and silver.

Introduced in 2001, as a complement to Woodstock's Signature Collection™ of premium musical gifts, the Encore Collection® has extended Woodstock's reach into all segments of the musical giftware market.

Woodstock Percussion, a worldwide leader in the design and manufacture of tuned wind chimes and musical giftware was founded by music pioneers Garry and Diane Kvistad in 1979. Today, Woodstock markets more than 100 different products in its Signature™ and Encore® Collections. Its home and garden offerings include tuned chimes, bells, gongs and musical fountains. The company's Woodstock Music Collection™ is a unique assortment of instruments from around the world that can be played and enjoyed without extensive training or practice.
