

**Woodstock Chimes®**

## **Garry's Sonic Mixes**

*Groups of Woodstock Products That Work Well Together*

All Woodstock Chimes are precision-tuned by a process that is unique to our industry. We use a sophisticated digital analysis that is hundreds of times more sensitive than the human ear. This equipment is part of a climate-controlled tuning environment, which ensures very high quality. In fact, we are the only windchime company that offers a lifetime tuning guarantee.

This is why **all of our chimes sound great together**. We have found that many of our customers collect chimes and often ask for recommendations of other chimes to combine. The following list is was compiled by Garry Kvistad, founder and owner of Woodstock Chimes. Garry is also a professional musician, and these are his suggestions of significant combinations that have connections musically, culturally or historically.

**Chimes That Relate Well To Each Other Musically**

**Chimes That Share Notes In A Musical Scale**

**Chimes With A Common Theme**

**The Woodstock Music Collection Mix**
